EXPERIENCE

NIELIT Chandigarh, Ropar — Trainee

June 2024 - July 2024

- Participated in a 6-week training program focused on AI & ML.
- Gained hands-on experience with Python , Flask , HTML/CSS , ML etc.
- Completed projects such as Flight Price Predictor using ML.

EDUCATION

IKGPTU, Mohali Campus 1 — B.Tech CSE (2022 – 2026)

- CGPA: 8.59 / 10 (till 6th Semester)

SMVP School, Una — Class 12 & Class 10 (HPBOSE)

- Class 12: 94.4% | Class 10: 94.7%

PROJECTS

Flight Price Predictor — Prediction system developed using Python & ML

- Created a machine learning model to predict flight prices based on various features such as departure date, airline, and flight duration.
- Implemented data preprocessing techniques and feature engineering to improve model accuracy.
- Achieved approx. 95% accuracy in predictions, demonstrating the model's effectiveness in forecasting flight prices.

Advanced Traffic Optimizer & Assistant System (ATOA) – AI based Traffic Optimizer & Preventor System

- Designed an AI-powered system using CNN + OpenCV to recognize traffic signs and provide voice alerts with 98.58% accuracy.
- Predicted traffic light changes and suggested optimal speed to reduce congestion.

Accident Prevention System (ATOA Extension) – Smartphone Sensors based Accident Prediction & Alert System.

- Accident Alert System using Smartphone sensors.
- Special Prevention from Chain Accident during Winter Fog.

SKILLS

- **Programming Languages:** C, C++, Python
- **Core Areas:** Data Structures & Algorithms, Machine Learning, Prompt Engineering
- **Tools & Technologies:** Flask, OpenCV, CNN, Git, HTML, CSS

Certification

AI/ML 6 Weeks Training: NIELIT CHANDIGARH

Completed project: Flight Price Predictor System

PCAP: Programming Essentials in Python

Cisco Networking Academy® and OpenEDG Python Institute

Hands-On Mobile Malware Detection & Forensics Bootcamp: IKGPTU

ISEA under MeitY

LANGUAGES

Hindi , English and Punjabi.
